GOLDSAVE

PRIMARY CO-OPERATIVE LTD

Goldsave is a juristic representative of KGA Life Ltd FSP 15980

We have got various products available in our Home-based Business Opportunity: the most popular are our KGA Life Funeral Policies but the great news is that we also offer Training! Here below are the basic Products which are available, along with their descriptions. You may choose between one of our Funeral Policies or The Training.

Or, on the other hand,

If you wish to do so and if you can afford it, you may combine both The Training and a Funeral Policy! You may choose any of our Products, to start your own Home-based Business! Build your Business and get paid over 7 levels deep!

Choose a product which you like and which you can afford.

Please make sure that you choose a Product with a Monthly Premium which you can afford.

You may choose any one of the following Products that fits your needs or liking.

They are:

1 — Funeral Policy (R100 per month)

2 — Funeral Policy (R200 per month)

3 — Training

4 — Invest to buy Gold and Silver (or simply save your money)

Here follows a description of each Product:

1 - Funeral Policy R100 per month

(Affordable policy) (You can earn a monthly income with this Product)

(Benefit: Very affordable monthly premium; allows you to earn money, working from home and to have your very own Home-based Business, at a very low cost!)

If you do not want one of our Funeral Policies, perhaps you would like to sign up for our Training:

3 - Training (You can earn a monthly income with this Product)

Besides our KGA Life Funeral Policies, we also offer Training.

What is the training about? What would I learn?

The training is mainly on crypto currencies, why you should invest in gold and silver, etc. Because crypto currencies are done on the computer and also stored in exchanges or off-line; security of your computer is of utmost importance. We give you training in that as well. For those that want to do email marketing will also be shown some methods they can use. Investment advice will also be available.

The training includes a 15 week course but the duration of the training will never end because there are always new subjects to introduce. One training module might not be specifically what you are interested in, but it would help someone else. The next one will again, perhaps, be of interest to you.

Goldsave will also except requests by the members on specific topics. The training product also has another roll to play. Some people do not want to sign up for a Funeral Policy, for whatever reason. So they can go for the training product.

How do I get this training? (Where and how?)

Some of the material is available to everybody in the network and can be seen in your back office, when you log in, under '**DOWNLOADS**'. The other material is emailed to the members who choose the training product.

4 - Invest (You do not earn a monthly income from this)

This is basically a savings account (works like a Savings Account in a Bank). You will be saving or investing an amount of money every month. You may choose how much you wish to invest.

This savings account is called your "**Gold Wallet**." Any member can invest and all members do each have a Gold wallet. You can invest any amount of money from R50 up to R1000. This will then go into your Gold wallet, which is like a savings account but the money may later be used to buy Gold, Silver, Bitcoin, Gold bars, Kruger Rands or it may be withdrawn as cash!

Please Note: There is no monthly income that will be paid for this because this is just you saving your own money, to buy Gold or Silver, in order to build wealth.

Important to understand when you are investing:

Remember that when you invest your money into your Gold wallet (which works like a savings account in a bank) you can withdraw your money at any time, if you should need to do so.

Here is how it works when you wish to withdraw your money from your Gold wallet:

The gold/money in your wallet is always accessible at any time.

You must let Goldsave know (by emailing us) that you want to withdraw some funds and we will then set the wheels in motion.

We would appreciate it if we could get some lead time as to when the funds will be needed. This is why we teamed up with Xodus Gold to manage our investment in Gold and Silver. They handle large amounts and also keep some money in cash ready for purchases or pay-outs.

Small amounts (R1000's) we do handle through Goldsave immediately but bigger amounts (R10 000's) we ask Xodus for the pay out and if the amount is bigger (R100 000's) we might have to sell of some Gold to make the funds available.

If you let us know via email within the month, pay outs can be made at month end. We have made small emergency pay-outs immediately; it depends on the amount and how serious the case is.

If you wish to withdraw your money from your Gold wallet, simply email Goldsave and let them know how much you wish to withdraw.

If you wish to buy Gold or Silver etc. with the money in your Goldwallet, simply send an email as well and let Goldsave know how much Gold or Silver you would like to buy. It would then be bought with the money in your Gold Wallet.

To buy Gold or Silver or to simply withdraw money from your Gold wallet: Email Goldsave at:

support@goldsave.co.za

Here is how you buy Gold or Silver with the money which you invest in your Gold wallet:

You email Goldsave and simply let us know what you want to buy and how much. We then deduct the amount from your wallet and Xodus (that buy all their gold and silver from Rand Refineries) will courier the gold and silver to your home. We use RAM couriers and there is a cost involved. This obviously

depends on where you stay and we would then let you know what the cost would be.

What you should know about investing (Your Gold wallet).

Your Gold wallet is a savings account. Any member can invest and all members do each have a Gold wallet. Money is invested into this Gold wallet. You can invest any amount of money from R50 up to R1000. This will then go into your Gold wallet, which is like a savings account but the money may later be used to buy Gold, Silver, Bitcoin, Gold bars, Kruger Rands or it may simply just be withdrawn as cash!

All members do have a Gold wallet and 20% of your business commission, after deduction of your monthly premium, also goes toward your Gold wallet.

Choose any of the above Products and start building your Business!
